

Woodland Camp

On Wednesday, 30 September the local councillors voted in favour of approving the revised plans for the site, including an enlarged Leisure Hall and a Security/Reception Cabin. We had intended to finish the first 16 new cabins by the end of October. However, through fellowship we have decided to adjust the schedule and shift manpower to start on the recently approved Leisure Hall and Security/Reception Cabin, being mindful that winter weather will soon set in and make outside work more difficult.

The new key date is May 2021, whilst most of the facilities will be ready beforehand. By this date we will have sleeping capacity for 150, improvements to the old hall for dining, a Security/Reception Cabin, and an indoor Leisure Hall. The Leisure Hall can be used as a meeting facility for 150 until the way is opened for the completion of the Main Hall.
